the journey starts here

Welcome to my art book, a collection showcasing original art including oil paintings, watercolors, sketches and digital art that I have created over the years. Each medium I've used is a testament to my passion for art and a commitment to exploring new techniques and mediums.

As an artist, I am constantly inspired by the beauty of the world around us. My art reflects my experiences, emotions and beliefs, and I strive to create pieces that resonate with others and evoke a sense of connection and wonder.

In this book you will find a diverse range of art, from bold and vibrant landscapes to intimate and contemplative studies and sketches.

I hope my collection inspires you to appreciate the beauty of art and encourages you to explore your own creativity. The artwork on the following pages is available as reproductions.

Thank you for joining me on this journey. I hope my art speaks to you in a meaningful way.

DELVE INTO ONE OF THE MOST CAPTIVATING DESTINATIONS ON EARTH.

Norway's quintessential beauty transcends through the country's inner waterways, namely its fjords. While the coastal ports and cities are picturesque possessing their own inherent appeal, nothing compares to sailing through a fjord beyond the North Sea past villages, waterfalls, sculptured valleys and mountains, and the raw magnificence of what Norway is. Norway's landscape and scenery are epic. The photos in this odyssey are a collection from four voyages totaling forty-two days on ships.

AUTHOR, PHOTOGRAPHER, SEAFARER JD SCHWARTZ has sailed on over 50 ships: 150 cruises and ocean crossings. His passion for life and the lure of the sea and ships is evidenced by the photographic books he produces. Navigating through Norway to capture the majesty of the midnight sun and mystery of its Northern Lights, Schwartz' captivating photography has seized the essence of Norway in this photographic odyssey featuring fifteen ports and seven fjords.
